1 OPhO Invitational Contest Scoring Process

The base score for each problem is dependent on the difficulty which in turn is decided by the problem writers and problem reviewers. The sub questions of each problem are awarded points based on the difficulty and the number of non-trivial steps needed to obtain the correct solution. Unlike the open round, there is no bonus for finishing a problem quicker; the final submission was graded based correctness only.

2 OPhO Invitational Contest Results

Thank you to the **33 finalists** that took the time to sit the 2020 Online Physics Olympiad Invitational Contest! We hope that you enjoyed the competition and will return to compete in the Open round again next year! In the style of the International Physics Olympiad, we have awarded groups of teams with gold, silver, bronze, and honorable mention placements. Congratulations! We have awarded **4 teams** with "*Gold medals*", **5 teams** with "*Silver medals*", **10 teams** with "*Bronze medals*", and **6 teams** with the "*Honorable Mention*" distinction! Congrats to all of our awardees!

This year's overall winner of the first ever Online Physics Olympiad is *Oachkatzlschwoaf [U]*. The top scoring high school team is *Everything is Relative*. The best one person is *d s*. The most elegant solution was by asdf for problem asdf. The most creative solution was by asdf for problem asdf. Below are summary of statistics; more detailed results/stats are on the next few pages.
